CPESN USA Promotes Clifton to Lead Practice Transformation Efforts

Raleigh, N.C. – March 9, 2020 – CPESN® USA is pleased to announce the promotion of Cody Clifton, PharmD, to Director of Practice Transformation. Clifton previously served as the company’s Coordinator of Quality Assurance and Best Practices.

CPESN USA is the country’s first Accountable Pharmacy Organization helping community-based pharmacy networks provide high quality, patient-centered enhanced services.

“We are pleased to have Cody spearheading our efforts to transform community-based pharmacy practice away from filling prescriptions at a moment in time to taking care of patients over time,” said Troy Trygstad, PharmD, MBA, PhD, Executive Director of CPESN USA. “As we look to leverage best practices within the best community-based pharmacies and scale those activities across thousands of pharmacies, Cody’s knowledge and experience will be important to our success.”

Currently, there are over 2,500 local, community pharmacies participating in 49 CPESN networks in 45 states across America.

“I’ve thoroughly enjoyed working directly with community-based pharmacies across the country who are focused on delivering and documenting patient-focused enhanced services,” shared Clifton. “I’m looking forward to the next challenge and fully believe that community pharmacists and their pharmacy staffers are ready to lead the way in providing accountable, value-based care.”

###

About CPESN® USA

CPESN® USA a clinically integrated, nationwide organization of pharmacy networks structured to advance community-based pharmacy practice. They empower community-based pharmacies that are deeply rooted within their community by fostering their ability to provide high quality, patient-centered enhanced services. CPESN® pharmacies integrate with other healthcare providers on the patient’s care team to coordinate medical treatment. The results are better medication adherence, higher patient satisfaction, and lower healthcare costs. You can find CPESN® networks of pharmacy providers in 45 states across America.
